GLOBAL IT DEPARTMENT

Job Application for Student Assistant - Global IT Projects

Dear Mr. Høst Hansen,

About Me

I am Federico Marra, a Master's student in Computer Science and Engineering at the Technical University of Denmark (DTU). My academic background in Data Security, Software Engineering, and Program Verification has provided me with a solid technical foundation. In addition, my experience as a Software Engineer at SNAP4 S.r.l. has honed my ability to manage projects, collaborate in agile teams, and develop innovative solutions. On a personal note, being diabetic has further motivated me to contribute to healthcare-related projects, as I understand firsthand the importance of quality and efficiency in systems that impact patient lives.

Why Novo Nordisk Engineering?

I am excited by the opportunity to join Novo Nordisk Engineering, a leader in designing and building state-of-the-art pharma facilities that serve millions of patients worldwide. The prospect of supporting the Global IT team in planning, coordinating, and executing projects is particularly appealing. I am drawn to an environment that values collaboration, innovation, and a noble cause—ensuring that digital solutions empower both employees and end-users in a complex, international setting.

Why Me?

My strong technical and organizational skills, coupled with my passion for project management, make me an excellent fit for this role. I have practical experience with software development and automation, and I am adept at supporting day-to-day IT project tasks such as preparing communications, scheduling meetings, and coordinating change management activities. Furthermore, my proactive and solution-oriented mindset enables me to thrive in dynamic environments. Being diabetic, I have a personal commitment to making a tangible impact in healthcare, and I am eager to contribute to projects that improve efficiency and quality in global IT operations at Novo Nordisk Engineering.

Sincerely,

Federico Marra
