HR IT and Digitalisation Team

Job Application for Student Assistant HR IT & Digitalisation

Dear Mr. Gorm,

About Me

I am Federico Marra, a Master's student in Computer Science and Engineering at the Technical University of Denmark (DTU). My academic background in Data Security, Software Engineering, and Program Verification has provided me with a solid technical foundation. In addition, my hands-on experience as a Software Engineer at SNAP4 S.r.l. has affiancato la mia capacità di gestire progetti complessi, lavorare in team dinamici e sviluppare soluzioni innovative. I am confident that these skills make me well-prepared to contribute effectively in a digital transformation context.

Why Topsoe?

I am particularly drawn to Topsoe's commitment to technological innovation and sustainability. As a leading global provider of solutions for the energy transition, Topsoe's vision to drive decarbonization and improve operational efficiency resonates deeply with my professional aspirations. The prospect of supporting the HR IT initiatives—especially through the enhancement of your global HR platform—presents an exciting opportunity to blend my technical expertise with my interest in creating outstanding digital experiences.

Why Me?

My strong analytical skills, attention to detail, and passion for systems, processes, and automation make me a great candidate for the Student Assistant HR IT & Digitalisation role. I bring hands-on experience in software development, data analysis, and documentation, along with the ability to prioritize tasks and work efficiently in a dynamic, international environment. I am eager to leverage these skills to support the continuous improvement of HR processes at Topsoe, contributing to user-friendly and data-driven solutions that enhance the overall HR experience.

Sincerely,

Federico Marra
